21. A: Do I have to do the shopping today? B: \_\_\_\_\_  
 A. Of course. What do you want to offer? C. No, you don't I did it yesterday.  
 B. You can start tomorrow. D. Yes, you've done it seriously. [1]
22. A: If you're tired, we could have a short break. B: \_\_\_\_\_  
 A: Yes, that would be nice. C: Sure. How many do you want?  
 B: Sorry. It's not broken D: Yes. I disagree. [1]
23. A: What's wrong with Steve? B: \_\_\_\_\_  
 A: I'd say he's overtired. C: Actually, he's generous.  
 B: He was able to do it. D: I'd say he's not mistaken [1]
24. A: What is your new friend like? B: \_\_\_\_\_  
 A: She looks like her mom. C: She likes swimming.  
 B: She is easy-going and honest. D: She doesn't like me. [1]
25. A: Have you seen the headlines in the newspaper?  
 B: \_\_\_\_\_  
 A: Gosh, I hope not. C: Yes. I'm sure.  
 B: No, that's too far. D: Not yet. Anything exciting? [1]

**SECTION 4: READING.****/5x1=5 points/**

Read the passage. Then answer the questions below.

**Fruit fly fix**

It is breakfast time. You have been looking forward to eating a nice ripe banana ever since you woke up. Just when you reach for the delicious piece of fruit on your counter, you see something that makes you much less hungry: a swarm of fruit flies!

Fruit flies are tiny insects that are attracted to ripe or rotting fruits and vegetables. The flies not only eat the fruit, they also lay their eggs there. A single fruit fly can lay up to 500 eggs on the surface of a piece of fruit. Within eight days, the fruit flies that hatch from these eggs are full adults that can then lay their own eggs. As you can see, what might start out as a small fruit fly problem can become very large very quickly.

Although there is a chance fruit flies can carry germs on to your food, this is not very likely. Fruit flies are annoying, but they probably will not hurt you. Because they are such a **nuisance**, however, most people want to get rid of these pesky bugs as quickly as possible. Some people use pesticide sprays on the fruit flies. Although this will kill the flies, it will also spread harmful poison all over your kitchen. Luckily, there is also a completely safe way for you to get rid of fruit flies in your house.

The first step is for you to remove all fruits or vegetables from your counter. Store these items in the refrigerator or in sealed containers. Clean up any spilled juice or bits of food that might be on the floor. Take out the trash and empty the recycling bin. Wash any dirty dishes that are in your sink. Doing all of these things will stop new fruit flies from finding food or places to lay their eggs.

Next, make a trap to catch all of the remaining fruit flies in your house. First, fill a small bowl with a few tablespoons of vinegar. Then, put a piece of very ripe or rotting fruit into the vinegar. Cover the bowl very tightly with a sheet of plastic wrap and poke a few very small holes in the wrap with a fork. If all goes according to plan, the flies will enter the trap through the holes but will be unable to fly back out. This trap will catch all of the remaining fruit flies. You can either kill these flies or release them outdoors.

Fruit flies can be a pest, but they do not have to make you crazy. With a little effort, you can get existing flies out of your house and prevent new ones from taking over your kitchen.

26. From this passage, we learn that fruit flies [1]  
 A. die immediately after they lay their eggs  
 B. can grow into adults after only 8 hours.  
 C. are mostly harmless.  
 D. fruits and vegetables can fly.
27. As used in paragraph 3, a **nuisance** is something that [1]

 B: \_\_\_\_\_  
 A: Both were great. C: Each were great  
 B: All were great. D: Either were great [1]

**SECTION 4: READING.****/5x1=5 points/**

Read the passage. Then answer the questions below.

**The Rio Grande**

Although not the longest river in America, the Rio Grande is one of the most important. But, unlike other significant rivers, it is not used for shipping. In fact, oceangoing ships cannot navigate the waters. No, what makes the Rio Grande so important is its location. Since 1846, it has been the official border of Texas and Mexico.

**Rio Grande Geography**

The Rio Grande is either the fourth or fifth longest river system in North America. It all depends on how it is measured. Because the river twists so much, it occasionally changes course. And these course shifts can cause it to be longer or shorter. At its last official measure, the Rio Grande clocked in at 1,896 miles. The river starts in Colorado and extends downward to the Gulf of Mexico.

Downward is the best way of describing it too. Not only does the river extend south, but it also starts in the mountains and gets lower and lower in elevation as it extends to the Gulf.

Its name is Spanish for the "Big River," but the Rio Grande is actually known as Rio Bravo in Mexico. "Bravo" translates as "furious," so the name makes sense. Because of its twists and turns, it certainly does seem to be angrier than most rivers!

**The Rio Grande Today**

The Rio Grande today is mostly used as a source of drinking water. Sadly, much of the water has been drained from the river. Parts of the river are almost dry! This is because people use more water from the river than the river can get back from rain and other sources. Experts are working to correct this, though, with hopes of restoring the river to its past strength.

Today, the river is important as a source of water for Texans and Mexicans. More important, it is a symbol of cooperation between two nations. Though borders like the Rio

Grande separate nations, they are also shared spaces. The Rio Grande is therefore a symbol of friendship and peace between two peoples.

26. According to the passage, why is the Rio Grande so important? [1]

- A. It is a source of drinking water for most of the United States.
- B. It is the border of Texas and Mexico.
- C. It is the longest river system in the United States.
- D. It is known by two different names.

27. In paragraph 3, the author most likely writes that “downward is the best way of describing it too” to [1]

- A. prove that the Rio Grande’s water levels have gone down recently
- B. argue that the Rio Grande has changed shape over the years
- C. highlight the fact that the Rio Grande flows south and from high elevations
- D. explain why the Rio Grande is known as the Rio Bravo down in Mexico

28. Based on its use in paragraph 4, the word **furious** most nearly means [1]

- A. angry
- B. large
- C. twisted
- D. dry

29. According to the passage, the Rio Grande has endpoints in [1]

- A. Texas and the Gulf of Mexico
- B. New Mexico and Colorado
- C. and Mexico
- D. Colorado and the Gulf of Mexico

30. All three statements are True except [1]

- A. The Rio Grande is the symbol of friendship between two countries.
- B. It is a symbol of cooperation between two nations.
- C. Nobody takes care of restoring the river to its past strength.
- D. The Rio Grande is the symbol of peace between two nations.

## Part 2

### SECTION: 5 WRITING

/20 marks/

You have received a letter from your English-speaking pen-friend Tom who writes:

Last month our class went to Washington to visit the National Museum of American History. It was my first visit there and it was fun! How often do you go to Museums with your class, if at all? Which museum is your favorite or what Museum would you like to visit? Why do you think people should go there? This summer we plan to go hiking with my parents.

Write a letter to Tom.

In your letter

- answer his questions

- ask **3 questions** about his summer plans

- write about your summer plans.

Write **100–120 words**.

/Remember the rules of letter writing./
